Press release: 12.516-107/21

Number of deaths constant on high level

Vienna, 2021-05-12 – According to preliminary results by Statistics Austria, 1 687 people died in Austria in calendar week 17 (from 26 April to 2 May 2021), which is approximately the same number of people as in the two preceding weeks (1 689 in calendar week 16; 1 683 in calendar week 15). The number of deaths is currently 14.1% above the five-year average (2016–2020) for calendar week 17.

Further information on [deaths](#) can be found on our website, where an interactive web application – [the Atlas of Deaths](#) – also graphically illustrates the development and regional distribution. Detailed results can be found in Statistics Austria's [open data repository](#).
